ILUMINAÇÃO ARQUITETURAL & TÉCNICA

ARCHITECTURAL & TECHNICAL LIGHTING

Desde 2010, a desenvolver competências na
conceção de iluminação arquitetural e técnica.

Cada projeto tem opções totalmente personalizáveis,
em termos de dimensões, acabamentos e formatos,
para se adaptar ao projeto mais complexo, desde um
espaço comercial a residencial ou mesmo uma área
corporativa.

As coleções combinam design e funcionalidade com
os padrões de qualidade que definem a marca.

Permanentemente focada na excelência e melhoria
das soluções de iluminação arquitetural versáteis e
adequadas, com elevada estética e componentes
funcionais.

Since 2010, developing expertise in
architectural and technical lighting design.

Each project has fully customizable options, in terms
of dimensions, finishes and formats, to adapt to the
most complex project, from a commercial space to a
residential or even a corporate area.

The collections combine design and functionality
with the quality standards that define the brand.

Permanently focused on the excellence and
improvement of versatile and suitable architectural
lighting solutions, with high aesthetics and
with high aesthetics and functional components.

MANTENHA-SE A PAR DAS NOVIDADES.
STAY UPDATED ON THE NOVELTIES.

GAMA DE PRODUTOS / PRODUCT RANGE

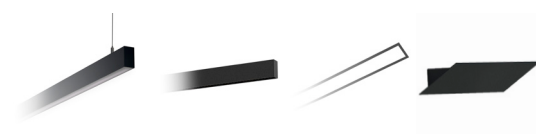

O design de iluminação arquitetural exige diferentes possibilidades ao incorporar a luz perfeita em cada projeto.

As coleções disponíveis foram desenvolvidas de forma a poderem adaptar-se, permitindo uma elevada personalização de cada projeto. Cada gama é composta por produtos com várias aplicações disponíveis, para garantir que tem o design ideal para o projeto em questão e com possibilidade de combinação entre gamas.

Architectural lighting design requires different possibilities when incorporating the perfect light into each project.

The available collections have been developed to be adaptable, allowing a high degree of customization for each project. Each range is made up of products with various applications available, to ensure that it has the ideal design for the project in question and with the possibility of combination between ranges.

DALI SYSTEM & HUMAN-CENTRIC LIGHTING

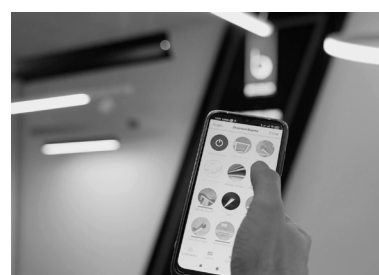

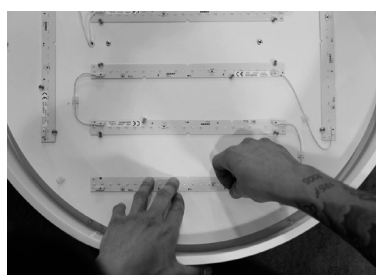

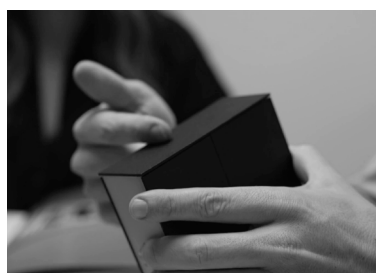

Os projetos de iluminação devem ser programados e controlados sem esforço, tornando a sua vida mais confortável. Ao utilizar o **Sistema DALI** combinado com o **Ritmo Circadiano (Human-Centric Lighting)**, pode facilmente ajustar a iluminação a uma rotina específica à sua escolha.

A recriação de um ambiente de luz natural diminui os efeitos negativos da luz artificial, melhorando o bem-estar físico e psicológico, bem como a produtividade, trazendo efeitos positivos para a saúde. Com uma tecnologia em constante crescimento e integração de LED, as luzes inteligentes podem ajudar a reduzir os custos de energia promovendo uma utilização eficiente.

Lighting projects should be programmed and controlled effortlessly, making your life more comfortable.

By using the **DALI System** combined with **Circadian Rhythm (Human-Centric Lighting)**, you can easily adjust the lighting to a specific routine of your choice.

Recreating a natural light environment diminishes the negative effects of artificial light, improving physical and psychological well-being as well as productivity, bringing positive health effects. With constantly growing technology and LED integration, smart lights can help reduce energy costs by promoting efficient use.

NEW DESIGNS

Caracterizada pelas linhas simples e minimalistas, a nova Circular Ring 90 Slim Suspensa é uma luminária circular que se adapta a qualquer projeto de interiores.

Characterized by its simple, minimalist lines, the new Circular Ring 90 Slim Suspensa is a circular luminaire that adapts to any interior design.

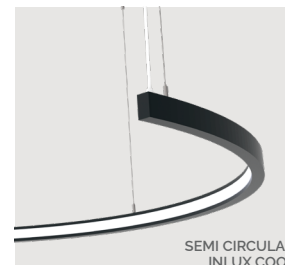

A sua forma semi circular, conjugada com o seu perfil de alumínio, permitem que esta luminária assuma uma função decorativa, sem descartar a funcionalidade da mesma.

Ideal para instalações de luz, proporcionando uma distribuição indireta do fluxo luminoso.

Its semi-circular shape, combined with its aluminum profile, allow this luminaire to take on a decorative function, without neglecting its functionality.

Ideal for light installations, providing an indirect distribution of the luminous flux.

Com um design geométrico único, esta peça de iluminação foi idealizada para transformar qualquer espaço devido à sua estética diferenciada e arrojada.

Perfeita para projetos amplos que procuram um ponto diferenciador.

With its unique geometric design, this piece of lighting has been designed to transform any space thanks to its distinctive and bold aesthetic.

Perfect for large projects looking for a differentiating point.

Com um design aprimorado, graças ao difusor clipado e a luz indireta orientada para o interior ou exterior da sua circunferência, as Inlux Cool e Outlux Cool oferecem uma iluminação homogênea por todo o espaço, mantendo um caráter decorativo, elegante e minimalista.

With an improved design, thanks to the clipped diffuser and the indirect light directed towards the inside or outside of its circumference, the Inlux Cool and Outlux Cool offer homogeneous lighting throughout the space, maintaining a decorative, elegant and minimalist character.

NATURAL MATERIALS

A nova luminária de teto Corkline destaca-se pela presença de elementos naturais e tradicionalmente portugueses.

Concebida para iluminação de interiores, esta peça revestida a cortiça portuguesa, proporciona ao espaço um conforto extra, assegurando ainda uma distribuição de luz uniforme.

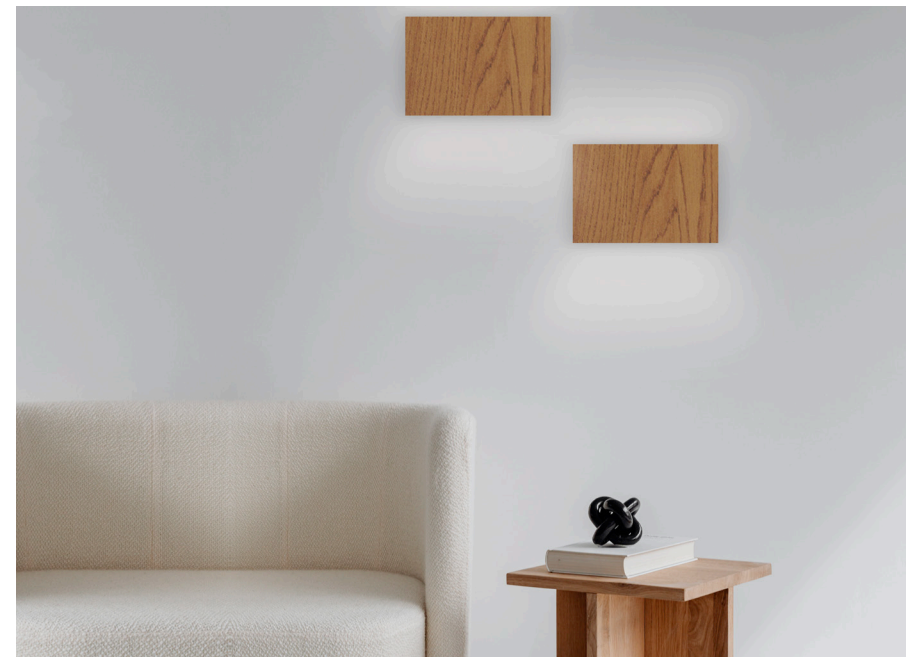

The new Corkline luminaire stands out due to the presence of natural and traditionally Portuguese elements.

Designed for interior lighting, this piece, covered in Portuguese cork, provides the space with extra comfort while ensuring an even distribution of light.

Ambientes acolhedores, como um canto de leitura, necessitam de uma iluminação adequada para preservar a funcionalidade do espaço. Mensa Woodline oferece a combinação ideal, assegurando a funcionalidade do espaço, enquanto exala uma sensação de paz e tranquilidade.

Cozy environments, such as a reading nook, need adequate lighting to preserve the functionality of the space. Mensa Woodline offers the ideal combination, ensuring the functionality of the space while exuding a sense of peace and tranquility.

Ao incorporar elementos naturais, é possível obter uma estética simples para os seus projetos de interiores.

A Coleção Woodline, com o tom quente da madeira e o seu design linear, cria uma atmosfera convidativa e confortável que se harmoniza com o espaço.

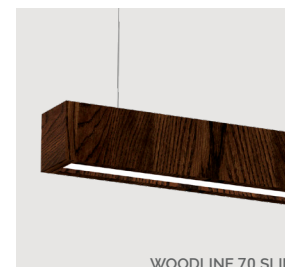

By incorporating natural elements, you can achieve a simple aesthetic for your interior projects.

The Woodline Collection, with its warm wood tone and linear design, creates an inviting and comfortable atmosphere that harmonizes with the space.

Ideal para vários projetos de interiores, esta luminária é revestida com madeira de alta qualidade, proporcionando uma estética rústica e minimalista ao espaço.

Ideal for various interior projects, this luminaire is covered in high-quality wood, giving the space a rustic, minimalist aesthetic.
